

Students are thrilled to be back together during this Science Fair season

Although local, regional and national science fair events continued virtually during the pandemic, everyone involved is glad to be together in person again. There were over 80 entries at Saturday's Mountain View Science and Technology fair.

"Many of the kids involved this year have never actually been at a science fair before! They did a fantastic job on their projects," said Ruth Roedler, retired Chinook's Edge teacher and President of the Mountain View Science & Technology Society's Science Fair since 1994. "I enjoy being part of this, but I also see how important it is for these students. Some of them continue to be thoroughly dedicated to science into the future, and it's really important to support that."

More photos appear on Chinook's Edge social media - be sure to check it out! The Regional science fair takes place in Red Deer on April 1st, and the National science fair will be held in Edmonton this year during the week of May 13-20.

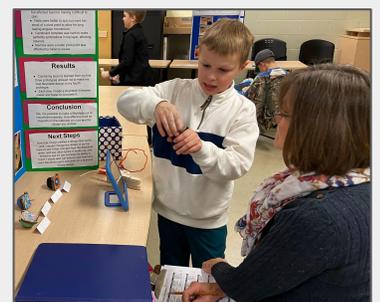

Calli Reid (Gr 7, Cremona School), explains her project 'Which wood burns faster' to science fair judge (and long-time volunteer) Robin Fehr.

Judge Alan Klink (who is also an electrician) was very interested in Khloe Blain's (Gr 7, Cremona School) project 'Electricity from composting'.

Claire Andrew (Gr 11, Olds High) shared her timely project 'Evolving COVID19 Proteins'.

Aidric Dulmage (Gr 3, Ross Ford Elementary), with 'Build your own beyblade'.

Haley Skikstrom (Gr 4 Carstairs Elementary) shares 'Jellyfish, the Ocean & Me'.

Briane Kilpatrick, Gr 6 Deer Meadow School, researched slime.

Nick de Groot & Cade Roy (Gr 5 Hugh Sutherland School), present their Electromagnets project.

Callie McMullen & Amelia Gibson (Gr 4, Ross Ford Elementary) with their project on Crystals.

Governor General's History Award for Excellence in Teaching - Each year, Canada's History Society recognizes six teachers for their innovative approach to teaching. Deadline is April 30, 2023 - [visit this link](#) for details.
